

# Pamber Neighbourhood Plan

**2<sup>nd</sup> May 2020**

This month's report to the Parish Council is to issue the findings of the Steering Groups activities in its research of the Parish.

The research was conducted by contacting 4 demographic groups in the parish

1. Residents
2. Businesses
3. Clubs and Societies
4. Children in local Primary Schools

Results vary in response within the groups and so have been reported and represented in differing ways. The information contained within the findings will be used to compile the Policies of the Neighbourhood plan, which will be presented to the residents for acceptance before being issued to Basingstoke & Deane Borough Council for the verification process.

The results will be made public for all residents to see. It is requested that the PPC makes these results available on its website.

Simon Greaves Chair, NP Steering Group
